Daido Moriyama in Color: LIMITED EDITION

Filippo Maggia, editor

A limited, luxury edition dedicated to one of the leading figures in contemporary Japanese photography

Considered one of the great masters of contemporary Japanese photography, Daido Moriyama produces images which reveal visions and worlds hidden just beneath the surface of reality. Now, for the first time, Moriyama's color photographs are available in an extraordinary limited-edition artist book edited by Filippo Maggia and designed for art and book lovers searching for the magic of a unique and invaluable collector's item.

Daido Moriyama in Color is available in three limited editions, each containing a different original framed photograph signed by Moriyama, the book *Daido Moriyama in Color: Now and Never Again*, and a black cloth slipcase designed especially for this special edition. Bibliophiles and collectors have a choice between three of Moriyama's photographs:

Yokusuka: In Moriyama's most iconic image, a young girl runs down a narrow alleyway resembling the ones still found today in Shinjuku.

Self-portrait: The pictures in which Moriyama actually appears are rare. Instead, the artist's shadow here bears witness to the moment and proclaims his presence.

Nocturnal Nude: A young woman seems to emerge from the darkness as a companion to the night.

Daido Moriyama in Color presents the work of a world-renowned artist in the form of precious and extraordinary book destined to grow in reputation and value over time.

About the Artist and Editor

Daido Moriyama was born in 1938 and is one of the most important living photographers and photobook makers. His work can be found in the collections of many major museums.

Filippo Maggia is a researcher in the Photography Department of the Royal College of Art.
